element of society is the Dollar. There are some few lowing : Being at the house of a neighbor a short time But they are unable to change the current. Society is frequently much agitated, but the stream in the old-fashioned way.—Cincinnati Chronicle.

Now, we notice this disagreable topic, only for the purpose of taking occasion to render a little act of justice which has not, we believe, been before meted to the gentleman on whom the responsibility rests for the introduction of this accomplished and beautiful, but very improper person, into the most respectable of exchanging good carnal for what he called indifsociety at Washington. It was M. de Pontois, the ferent spiritual books, which he considered advantasociety at Washington. It was M. de Pontois, the then French Minister, who introduced her into our society almost officially; the lady having been sent out from his Court, as it was afterwards generally reported, to put an end to the influence of her fascinations upon the young Duke of Orleans, the heir apparent to the throne. The French Minister behaved shamefully in this respect, acquainted as he could not shamefully in this respect, acquainted as he could not but have been with the truth of the case; and it was a calculated as a proof of this assertion pulled out of his pocket a volume of old puritanic divinity, for which he averred, and the fact proved it, a plain pudding, every thing plain. At six or seven the fact of the baunch for the father and elder sons. They afterwards take their port and claret, and—this out of a chest!"

Can we not fancy a laborer, writing of the families of the Deans and Rectors of the Church.

"The frugal mother has an early dinner provided divinity, for which he averred, and the fact proved it, a plain pudding, every thing plain. At six or seven the had deposited a well-bound volume of the works a plain pudding, every thing plain. At six or seven the fact of the haunch for the father and elder sons. They afterwards take their port and claret, and—this out of a chest!"

On a very Hones Ruge. At Long Branch lately want. but have been with the truth of the case; and it was only his own return to France (which happened to he let him go, with advice in future always to consult he let him go, with advice in future always to consult have been with the truth of the case; and it was exchanges would expose him to prosecution for theft, he let him go, with advice in future always to consult have the recture for the laborer. only his own return to France (which happened to be let him go, with advice in future always to consult follow immediately after this occurrence) that saved the owner of the property before he attempted to answer for the rector, than the rector for the laborer.

Cars and Bahres.—The Pottsville Journal says that a woman left her infant on the bed, while she went down stairs to attend to some domestic duties on account of flixs state of things. Let the special infants breast, with its head near the child's month as if in the act of sucking list breath. Upon examination the child's month to this was from the child's south as if in the act of sucking list breath. Upon examination the child was from the child's month of the Departments at Washington. Between the weight of the cat's body upon the child's between the child's month of the power of breathing, and that death was in that manner produced?

We rejoice that the Sentinel has broken ground on the shed was found to the shed was formed to some domestic duties on account of the state is literally a wilderness, asked a few days since in the stuffering female heart alone could have furnished. Northern part of the State is literally a wilderness, asked a few days since in the stuffering female heart alone could have furnished.
